6th Abu Dhabi International Vascular Conference

المؤتمر الدولي السادس لطب الأوعية الدموية

A multidisciplinary approach to prevention and care

Oct. 11-12, 2024

Sofitel Hotel, Abu Dhabi, UAE

SPONSORSHIP PROSPECTUS

Prof. Mohamed Baguneid

Dr. Sulaiman Alshamsi

INVITATION LETTER

Dear Partners,

On behalf of the Scientific & the Organizing committees we are delighted to invite your company's participation at **"6th Abu Dhabi International Vascular Conference"** to be held on **11th - 12th October, 2024** at **Sofitel Hotel, Abu Dhabi, UAE**.

Building on the success of our previous vascular conferences, our aim remains to raise awareness of vascular disease, a progressive chronic illness whose onset is often difficult to detect. Whilst risk factors can usually point to its possible presence, more often it is only detected when it manifests with a complication. There are several ways we can prevent or delay its onset and there are many options available to slow its progression.

The sessions will be led by regional and national experts on a wide spectrum of vascular topics and directed towards healthcare professionals caring for patients with these conditions. A multidisciplinary panel of speakers from vascular surgery, vascular medicine, neurology and cardiology will provide insight into medical management as well as open and endovascular techniques. Amongst the topics that will be covered we will highlight peripheral arterial disease, aortic aneurysms, aortic dissection, complex venous problems and cerebrovascular disease. We have also included this year sessions on vascular malformations in children and other rare vascular manifestations of vascular disease. Question and answer sessions, expert debates and panel discussions will help fulfill our mission of high-level education for healthcare professionals.

The Scientific Committee has developed a comprehensive two-day program highlighting the current challenges and clinical development in vascular medicine. The topics of the conference present the latest updates in the diagnosis and management of common and uncommon vascular disorders. Lectures and workshops will be delivered by renowned vascular surgeons and experts from UAE, the Gulf Region, and the USA. Moreover, dedicated time slots for workshops have been allocated to allow delegates a more interactive, hands-on experience to keep abreast of the latest developments and future perspectives within the field.

The conference aims to advance excellence in vascular surgery and vascular medicine by promoting research, education, and implementation of the most recent medical updates into clinical practice, and to increase collaboration in the arena of vascular medicine in the UAE and the region.

This conference will provide a very important exposure to sponsors to promote your company products and services. In terms of sponsorship, we offer exposure that will help position your brand and its strengths and most importantly feature your support to medical advancement in the UAE.

The sponsorship comes with a diverse portfolio of promotional opportunities. We would be more than happy to provide you with more information and on how we could best tailor these to suit your needs.

Being an important partner, we look forward to your participation in this important conference.

We have enclosed the sponsorship prospectus that details the different levels of participation from which you can choose how you would like to participate in the event and support our efforts. We appreciate your participation in the past and hope you continue to partner with us in this work.

Looking forward to your participation in this very important event.

Yours Sincerely,

Professor Mohamed Baguneid
Conference Chairman

CONFERENCE OBJECTIVES:

At the end of this educational activity, participants will be able to:

- Review the latest advances and best practices of vascular medicine, through worldwide initiatives in education, training, research and practice.
- Describe the referral process based on symptoms and treatment of vascular disease.
- Examine the pathophysiology, evaluation and treatment of common and uncommon vascular disorders.
- Examine the epidemiology, screening process and preoperative risks of carotid disease.
- Recognize aneurysm epidemiology, pathology and aortic disease progression.
- Manage, screen and describe studies of vascular disease.
- Define classification, workup and treatment of venous disease.
- Differentiate the care processes of various vascular diseases.
- Generalize findings from contemporary vascular research to vascular medicine practice.
- Diagnose and manage vascular patients with varied clinical presentations.

CONFERENCE HIGHLIGHTED TOPICS:

- Vascular services and networks
- Angioplasty or bypass for critical limb ischaemia
- Revascularisation by angiosomes
- Diabetic foot ulcers
- Diabetic neuropathy and its management
- Cardiovascular risk factor modifications
- Use of vascular duplex ultrasound imaging
- When and how to treat varicose veins
- Diagnosing and management of pelvic vein reflux
- Thrombophilia testing
- Thorough pre-operative assessment saves lives
- Enhanced recovery in vascular surgery
- Abdominal aortic aneurysm
- How to prevent death from AAA rupture
- Managing thoracic aortic dissection
- Fistula first program
- Vascular access for hemodialysis
- Managing complications of arterio-venous fistula creation
- Thoracic outlet syndrome diagnosis and management
- Major limb amputations
- Rehabilitation post-amputation
- Childhood vascular malformations
- Stroke prevention and management

WHY ATTEND ?

This conference will feature inspiring speakers, interactive sessions, and multiple opportunities to network and share lessons and success stories:

- Gain a deeper understanding of the many varied and fascinating aspects and practice of vascular medicine.
- Learn from thought leaders, experts and high-level professionals & top-notch speakers in the field.
- Network with doctors, nurses, scientists, decision makers and industry peers to face the future of vascular medicine.
- Get acquainted with new approaches, initiatives, challenges, technologies, innovative solutions to provide the best services.
- Get updated on best practices, innovations, and solutions that you can apply in your organization.

WHO SHOULD ATTEND ?

- All physicians and surgeons
- Ambulatory health staff and emergency department physicians
- Nursing staff
- Allied staff including radiographers, podiatrists, physiotherapists, pharmacists, occupational health and rehabilitation
- Residents and interns, medical and nursing students

Become a Sponsor:

Welcome to a comprehensive menu of opportunities to promote your brand at the 6th Abu Dhabi International Vascular Conference 2024.

We offer comprehensive sponsorship packages which include exhibit space and various branding opportunities. Sponsorship allows you to achieve your objectives before, during, and long after the event. Make sure your company stand form the crowd and get maximum exposure to qualified decision-makers from the industry with our value-added opportunities!

Our team is ready to tailor a package that suits your needs, reflects your company image and fits in with your budget. Please find below various sponsorship categories:

Why 6th Abu Dhabi international Vascular Conference 2024?

- Align your brand with region’s one of the best Vascular event & influence the audience that matters most to you
- Connect with key industry decision makers, researchers and clinicians
- Maximum exposure at a premier exhibition dedicated to Vascular products and services
- Exhibit and showcase your marketing and promotional materials
- Increase your Brand equity and promote new product and services
- Build new Business and maintain existing relationships
